the merits. The Examiner has acknowledged that independent claims 1, 11 and 17 are generic.

The Examiner is advised that claims 1-5, 8-13, 15 and 17-20 read on the elected species.

The requirement for election of species is respectfully traversed. The species identified by the Examiner can most efficiently be examined in a single application. Further, it is submitted that the searches for the species identified by the Examiner would be coextensive. Accordingly, withdrawal of the requirement for the election of species is respectfully requested.

The application is now ready for examination on the merits. If there are questions regarding this response, please telephone Applicants' undersigned agent.

Respectfully submitted,
